

GRAPHIC DESIGNER

This is a rare opportunity for a full-time, on-site, graphic designer position in Japan (Niigata). Knowledge of the Japanese language is not required, and a work visa will be provided if needed.

This is a very creative position in which you will design innovative interfaces for audio and graphics tools, as well as the corresponding marketing assets.

Please send your resume and links to your portfolio to jobs@tsugi-studio.com

Make sure to include an example of innovative UI design (applications without it will not be considered).

WHO YOU ARE

REQUIRED:

- Knowledge of graphic design principles such as color theory, typography, and layout
- Proficiency in creating visually appealing and user-friendly interfaces
- Proficiency in Adobe Creative Suite (Photoshop, Illustrator, After Effects)
- Great written and verbal communication in English, French, OR Japanese
- Great organizational skills and attention to detail

INTERESTING:

- Experience in motion design
- Video creation/editing
- Basic 3D modeling/rendering
- Knowledge of HTML and CSS
- Scripting skills (e.g., Python)

YOUR MAIN TASKS

- Design graphical interfaces for new, innovative creation tools
- Create visual assets for our website
- Help produce engaging marketing content (e.g., videos, blogs)

BENEFITS

- Salary and title based on skills and experience
- Annual bonus based on employee and company performance (usually 1 to 2 months of extra salary)
- Commute paid by company
- Health insurance and retirement plan
- Flexible working hours
- 16 public holidays, 2 weeks paid time off (increases with time in company)
- Extra company time-off during summer & end of year
- If you are not in Japan: sponsoring of your work visa and help to settle in
- And more!
